TUDOMÁNYOS KÖZLEMÉNYEK JEGYZÉKE

1991 - 1995

List of Scientific Publications

**Institute of Experimental Surgery
Szent-Györgyi Albert Medical University
Szeged, Hungary**

A bibliográfia a Szent-Györgyi Albert Orvostudományi Egyetem Kísérletes Sebészeti Intézete munkatársainak 1991 és 1995 között megjelent közleményeit sorolja fel.

A közlemények besorolása a szerzők nevének betűrendi sorrendjében történt.

A kivonatokat * jelzi.

A bibliográfiában felsorolt közlemények megtekinthetők az intézet könyvtárában.

COMMENT

The bibliography presents the list of publications of the members of the Institute of Experimental Surgery of Szent-Györgyi Albert Medical University between 1991 and 1995.

The publications are arranged according to the alphabetic order of the authors' name.

The sign * denotes abstracts.

The publications listed here can be examined in the library of the Institute.

ADAMICZA Á., TUTSEK L., DARÓCZY B., BARI F., NAGY S.:

The measurement of cardiac output in dogs by impedance cardiography with different electrode arrangements.

ACTA PHYSIOLOGICA HUNGARICA 82: 37 - 52, 1994.

BARANYI L., CAMPBELL W., OHSHIMA K., FUJIMOTO S., BOROS M., OKADA H.:

The antisense homology box: A new motif within proteins that encodes biologically active peptides.

NATURE MEDICINE 1: 894 - 901, 1995.

BATES J.H., DARÓCZY B., HANTOS Z.:

A comparison of interrupter and forced oscillation measurements of respiratory resistance in the dog.

JOURNAL OF APPLIED PHYSIOLOGY 72: 46 - 52, 1992.

BOROS M., BAKÓ L., NAGY S.:

Effect of antioxidant therapy on cyclooxygenase-derived eicosanoid release during intestinal ischemia-reperfusion.

EUROPEAN SURGICAL RESEARCH 23: 141 - 150, 1991.

BOROS M., KARÁCSONY G., NAGY S.:

Reperfusion mucosal damage following complete intestinal ischemia in the dog.*

CIRCULATORY SHOCK 34: 156, 1991.

BOROS M., KASZAKI J., BAKÓ L., NAGY S.:

The relationship between xanthine oxidase and histamine release during intestinal ischemia-reperfusion.*

CIRCULATORY SHOCK 34: 155, 1991.

BOROS M., KASZAKI J., NAGY S.:

Histamine release during intestinal ischemia-reperfusion: Role of iron ions and hydrogen peroxide.

CIRCULATORY SHOCK 35: 174 - 180, 1991.

BOROS M.:

Az ischaemiás vékonybél reperfúziós károsodásának kísérletes vizsgálatai. (Experimental studies on reperfusion injury of the ischemic small intestine.)

KANDIDÁTUSI ÉRTEKEZÉS. Thesis. Szeged, 1991.

BOROS M., KARÁCSONY G., KASZAKI J., ÖRDÖGH B., NAGY S.:
Reperfusion injury following complete intestinal ischemia. The distribution
of mucosal mast cells.*

EUROPEAN SURGICAL RESEARCH 24 (Suppl. 2): 82 - 83, 1992.

BOROS M., KASZAKI J., BAKÓ L., NAGY S.:

Studies on the relationship between xanthine oxidase and histamine release
during intestinal ischemia-reperfusion.

CIRCULATORY SHOCK 38: 108 - 114, 1992.

BOROS M., KARÁCSONY G., KASZAKI J., NAGY S.:

Reperfusion mucosal damage after complete intestinal ischemia in the dog:
The effects of antioxidant and phospholipase A₂ inhibitor therapy.

SURGERY 113: 184 - 191, 1993.

BOROS M., OLÁH T., HAJDU J., SZENDRÉNYI V., LÁZÁR GY. IFJ.,
KASZAKI J., FÜZESI G., DOROTOVICS SZ., ÖRDÖGH B., NAGY S.:

Nyálkahártya ischaemia diagnózisa indirekt pH méréssel.

(Diagnosis of mucosal ischemia by indirect pH measurement.)

MAGYAR SEBÉSZET 46: 299 - 311, 1993.

BOROS M., HATANAKA K.:

Decrease of mast cells during intestinal ischemia-reperfusion.*

SHOCK (JAPAN) 8: 71, 1993.

BOROS M., KASZAKI J., ÖRDÖGH B., NAGY S.:

Intramucosal pH changes following complete segmental small intestinal
ischemia, as compared with the effects of superior mesenteric artery
occlusion.

EUROPEAN SURGICAL RESEARCH 26: 76 - 86, 1994.

BOROS M., NEWLANDS G.F.J., HATANAKA K.:

Mast cell degranulation during ischemia-reperfusion injury of the small
intestine.*

SHOCK 2 (Suppl.): 33, 1994.

BOROS M., HATANAKA K.:

Ischemia and ischemia-reperfusion induced intestinal mucosal damage
following complete arterial occlusion in the rat.*

JAPANESE JOURNAL OF CIRCULATION RESEARCH 17: 18, 1994.

BOROS M., HATANAKA K.:

Vascular changes during intestinal ischemia-reperfusion.*

TRANSACTIONES SOCIETATIS PATHOLOGICAE JAPONICA 83: 310, 1994.

BOROS M., HATANAKA K.:

Mucosal mast cells in the small intestine during complete arterial occlusion.*

SHOCK (JAPAN) 9: 54, 1994.

BOROS M., HATANAKA K., MASUDA J., OGATA J.:

Mast Cells in the Small Intestinal Mucosa during Ischemia-Reperfusion.

In: NIIMI H., ODA M., SAWADA T., XIU R-J. (Eds.) *Progress in Microcirculation Research*. Pergamon, Elsevier Science, Oxford, pp. 209 - 214, 1994.

BOROS M., HATANAKA K., TAKAICHI S., NEWLANDS G.F.J., NAGY S.:

Ischemia-induced intestinal mast cell exocytosis.*

EUROPEAN SURGICAL RESEARCH 27 (Suppl. 1): 90, 1995.

BOROS M., TAKAICHI S., HATANAKA K., NAGY S.:

The relationship of ischemia- and reperfusion-induced mucosal lesions following complete arterial occlusion in the small intestine.*

SHOCK 3 (Suppl.): 18 - 19, 1995.

BOROS M., TAKAICHI S., MASUDA J., NEWLANDS G.F.J.,
HATANAKA K.:

Response of mucosal mast cells to intestinal ischemia-reperfusion injury in the rat.

SHOCK 3: 125 - 131, 1995.

BOROS M., KASZAKI J., BARANYI L., SZALAY L., RÁCZ I., NAGY S.:

Circulatory effects of systemic endothelin antagonist administration.*

SHOCK 4 (Suppl.): 25, 1995.

BOROS M., TAKAICHI S., HATANAKA K.:

Ischemia time dependency of reperfusion injury following complete arterial occlusion-of the rat small intestine.

TRANSPLANTATION PROCEEDINGS 27: 2789 - 2790, 1995.

BOROS M., KASZAKI J., ÖRDÖGH B., NAGY S.:

Nyálkahártya pH-változások összehasonlítása a vékonybél szegmentális ischaemiája és az arteria mesenterica superior elzáródása után.*

(Intramucosal pH changes following complete segmental small intestinal ischemia, as compared with the effects of superior mesenteric artery occlusion.)

LEGE ARTIS MEDICINAE 5: 704, 1995.

CSERR H.F., LATZKOVITS L., PATLAK C.S., PETTIGREW K.D.,
RIMANÓCZY Á.:

Effects of vasopressin (VP) and atriopeptin (AP) on the water content of cultured rat astroglial cells.*

SOCIETY FOR NEUROSCIENCE ABSTRACTS 17 (Part II.), 1991.

CSERR H.F., LATZKOVITS L.:

A role for centrally-released vasopressin in brain ion and volume regulation: A hypothesis.

PROGRESS IN BRAIN RESEARCH 91: 3 - 7, 1992.

FISCHER J., FAKLA I., LATZKOVITS L.:

Lactoseries glycoproteins as extracellular matrix components between some neurons and their glial envelope.*

ACTA HISTOCHEMICA 96: 235 - 236, 1994.

GYÖNGYÖSI M., SÁRI T., KASZAKI J., NÉMETH J., VÁRKONYI T.,
CSANÁDY M.:

Elevated levels of plasma gastrin and vasoactive intestinal peptide in acute myocardial infarction.*

JOURNAL OF MOLECULAR AND CELLULAR CARDIOLOGY 27:
A204, 1995.

HANTOS Z., ADAMICZA Á., GOVAERTS E., DARÓCZY B.:

Pulmonary and chest wall components of the oscillatory impedance in the cat.*

THE EUROPEAN RESPIRATORY JOURNAL 4: 430, 1991.

HANTOS Z., ADAMICZA Á., GOVAERTS E., DARÓCZY B.:

Mechanical impedances of lungs and chest wall in the cat.

JOURNAL OF APPLIED PHYSIOLOGY 73: 427 - 433, 1992.

HANTOS Z., DARÓCZY B., SUKI B., NAGY S., FREDBERG J.J.:
Input impedance and peripheral inhomogeneity of dog lungs.
JOURNAL OF APPLIED PHYSIOLOGY 72: 168 - 178, 1992.

HANTOS Z., PETÁK F., ADAMICZA Á., DARÓCZY B.:
Measurement of total pulmonary and terminal airway impedance during
infusion of histamine.*
THE EUROPEAN RESPIRATORY JOURNAL 5 (Suppl. 15): 183, 1992.

HANTOS Z., PETÁK F., ADAMICZA Á., DARÓCZY B., SUKI B.,
LUTCHEN K.R.:
Respiratory impedances measured with optimum ventilation waveform in
rabbits.*
THE EUROPEAN RESPIRATORY JOURNAL 6 (Suppl. 17): 503s, 1993.

HANTOS Z., PETÁK F., ADAMICZA Á., DARÓCZY B., SUKI B.,
LUTCHEN K.R.:
Optimum ventilator waveform for the estimation of respiratory impedance:
An animal study.
EUROPEAN RESPIRATORY REVIEW 4: 191 - 197, 1994.

HANTOS Z., PETÁK F., ADAMICZA Á., DARÓCZY B., FREDBERG J.J.:
Airway, terminal airway and tissue impedances: Differential responses during
histamine infusion in the dog lung.*
AMERICAN JOURNAL OF RESPIRATORY AND CRITICAL CARE
MEDICINE 149: A816, 1994.

HANTOS Z., PETÁK F., ADAMICZA Á., DARÓCZY B., FREDBERG J.J.:
A hisztaminnal kiváltott konstrikcio megoszlása a terminális és centrális
légutak és a tüdőszövet között.*
(Partitioning of the histamine-induced constriction among terminal and
central airways, and the pulmonary tissue.)
MEDICINA THORACALIS 47 (Suppl.): 30, 1994.

HANTOS Z., PETÁK F., ADAMICZA Á., DARÓCZY B., FREDBERG J.J.:
Differential responses of global airway, terminal airway, and tissue
impedances to histamine.
JOURNAL OF APPLIED PHYSIOLOGY 79: 1440 - 1448, 1995.

JÁNOSSY T., VIZLER C., VÉGH P., DUDA E.:

The effect of tumor necrosis factor producing tumor grafts in mice.*

EUROPEAN CYTOKINE NETWORK 3: 195, 1992.

JÁNOSSY T., BARANYI L., KNULST A.C., VIZLER C., BENNER R., VÉGH P.:

MHC-specific graft-protective and delayed-type hypersensitivity (DTH) suppressive activity of a $CD4^+CD8^+$, $\alpha\beta$ T cell receptor (TCR) positive lymphoma isolated from a tolerant mouse.

IMMUNOBIOLOGY 188: 172 - 193, 1993.

JÁNOSSY T., BARANYI L., KNULST A.C., VIZLER C., BENNER R., KELÉNYI G., VÉGH P.:

Autoimmunity, hyporeactivity to T cell mitogens and lymphoproliferative disorders following neonatal induction of transplantation tolerance in mice.

EUROPEAN JOURNAL OF IMMUNOLOGY 23: 3011 - 3020, 1993.

JÁNOSSY T., BARANYI L., KNULST A.C., VIZLER CS., NYIRATI I., OCSOVSZKI I., BENNER R., VÉGH P.:

MHC antigénnel szemben toleráns egerből származó $CD4^+CD8^+TCR\alpha\beta^+$ lymphoma specifikus graftvédő hatása.*

(Specific graft-protective effect of a $CD4^+CD8^+TCR\alpha\beta^+$ lymphoma isolated from a mouse tolerant to MHC antigens.)

MIT ÜZEN A MIT? 1993. október: 30, 1993.

JÁNOSSY T., VIZLER CS.:

Xenotranszplantáció: a legújabb eredmények és távlatok.

(Xenotransplantation: Recent results and perspectives.)

MIT ÜZEN A MIT? 1993. december: 38 - 39, 1993.

JÁNOSSY T., VIZLER C., KRIZSA J., HUNYADI J., KISS M., NYIRATI I., DOBOZY A., VÉGH P.:

Long-term survival and use of human skin xenografts in immunosuppressed mice.

TRANSPLANTATION PROCEEDINGS 26: 1268 - 1270, 1994.

JÁNOSSY T., BARANYI L., VIZLER C., NYIRATI I., VÉGH P.:

Induction of neonatal transplantation tolerance and lymphoproliferative disorders in mice: The role of F₁ donor cells.

TRANSPLANTATION PROCEEDINGS 27: 188 - 190, 1995.

JÁNOSSY T., VIZLER C., BOSKÓ M., MODOK S., OCSOVSZKI I.,
HIDVÉGI Z., SAVELKOUL H.F.J., VREEDENDAAL A., BENNER R.,
VÉGH P.:

Hyperimmunoglobulinemia, autoimmunity and lymphoproliferative disorders
in mice following neonatal induction of transplantation tolerance.*

IMMUNOBIOLOGY 194: 124, 1995.

KASZAKI J., BOROS M., NAGY S.:

Role of histamine in intestinal reactive hyperemia following mesenteric
ischemia.*

CIRCULATORY SHOCK 34: 154 - 155, 1991.

KASZAKI J., SZABÓ A., ÖRDÖGH B., BOROS M., NAGY S.:

Role of the endothelium in reactive hyperemic responses following different
durations of segmental intestinal ischemia.*

CIRCULATORY SHOCK (Suppl. 1): 21, 1993.

KASZAKI J., KARÁCSONY G., ÖRDÖGH B., BOROS M., TÁRNOKY K.,
NAGY S.:

Effect of previous mast cell degranulation on the consequences of reperfusion
following segmental mesenteric ischemia in the dog.*

SHOCK 2 (Suppl.): 32, 1994.

KASZAKI J., BOROS M., SZABÓ A., NAGY S.:

Role of histamine in the intestinal flow response following mesenteric
ischemia.

SHOCK 2: 413 - 420, 1994.

KASZAKI J., WOLFÁRD A., SÁRI T., NAGY S.:

Role of histamine receptors and endothelium in cardiac contractility changes
following hypertonic saline infusion.*

EUROPEAN SURGICAL RESEARCH 27 (Suppl. 1): 73, 1995.

KASZAKI J., WEBB Z., HÉGETŐ H., NAGY S.:

In vitro study of endothelium-dependent histamine release from canine
mesenteric arterial segments.

INFLAMMATION RESEARCH 44 (Suppl. 1): S24 - S25, 1995.

KASZAKI J., WOLFÁRD A., BALOGH Z., PARRATT J.R., NAGY S.:
The role of nitric oxide in the early hemodynamic changes in hyperdynamic
endotoxemia.*

SHOCK 3 (Supl.): 26, 1995.

KASZAKI J., BOROS M., BARANYI L., WOLFÁRD A., WEBB Z.,
PARRATT J.R., NAGY S.:

The role of nitric oxide and endothelins in the early hemodynamic changes in
hyperdynamic endotoxemia.*

SHOCK 4 (Supl.): 48 - 49, 1995.

KOVÁCS J., KASZAKI J., TEMESVÁRI P., CZESZNAK A., ÁBRAHÁM
C.S., JOÓ F.:

The role of cerebral microvessels in the elimination of histamine released
during postasphyxial reperfusion in newborn piglets.

NEUROSCIENCE LETTERS 195: 25 - 28, 1995.
